Project Details

Description of the Web Design Project:

Seattle AI Developers will design and develop a professional website for the Client's cabinetry installation business. The goal of the website is to establish a strong online presence and generate customer inquiries for cabinetry installation and remodeling services throughout the Greater Seattle area.

Project Timeline:
The project is expected to start on Mar 8th and reach completion in 3 weeks.

Key Milestones:

- Initial Design Mockups and Design Revision: 1 week
- Development & Coding Phase: 1 week
- Final Deployment and SEO Optimization: 1 week

Scope of Work

- **Design**
  Creation of a custom website design tailored to the Client's business and service offerings. This includes the development of page layouts, visual structure, and branding elements appropriate for a professional cabinetry installation business. The project includes **revisions up to client satisfication**.

- **Development**
  Development of the website using modern web technologies including **HTML, CSS, and JavaScript or next.js** depending on circumstances, along with a content management or hosting platform if required. This includes building the website structure, implementing page functionality, integrating the contact form, and preparing the website for public deployment.

- **SEO**
  On-page search engine optimization (SEO) will be implemented, including proper page structure, keyword optimization related to cabinetry installation services in the Greater Seattle area, metadata setup, and preparation for indexing by search engines such as Google.

- **Testing**
  The website will be tested across modern web browsers and mobile devices to ensure proper functionality, responsiveness, and performance. Any bugs or technical issues identified during testing will be corrected prior to delivery of the website.

Project Components:

- **Homepage**
  Overview of the Client's cabinetry installation business, highlighting services, featured project installations, and a clear call-to-action for customers to request a quote.

- **Services Page**
  Detailed descriptions of services including:

  • Kitchen cabinet installation
  • Bathroom cabinet installation
  • Closet and storage cabinetry
  • Pantry cabinetry
  • Kitchen and bathroom demolition
  • Full kitchen and bathroom remodeling coordination

- **Projects / Portfolio Page**
  Gallery showcasing **5-10 completed cabinetry installation projects**, including images of kitchens, bathrooms, closets, and storage installations.

- **Service Areas Page**
  Overview of the Client's service coverage throughout the **Greater Seattle Area**, including locations such as Seattle, Bellevue, Renton, Tacoma, Issaquah, Sammamish, and surrounding cities.

- **About Page**
  Information about the Client's experience and specialization in cabinetry installation, including expertise in **European cabinet systems** such as IKEA, Leicht, Nobilia, Bauformat, and Porcelanosa.

- **Contact Page**
  Customer contact form allowing visitors to request quotes or consultations, including:

  • Contact form
  • Phone and email contact information
  • Service area information
  • Google Maps integration

Total Project Cost & Payment Schedule:

The total cost for the website development is **$3,000**. Payment is due **in full after the Client has reviewed the completed website and confirmed satisfaction with the work**. No payment is required before the project is delivered. Upon receipt of payment, the website and all associated files will be released to the Client.
